

# ONELOGIN FOR SYNCPLICITY

Securely Connect Every App, User, Device & Directory

## INNOVATIVE IDENTITY MANAGEMENT THAT MAKES LIFE EASIER

Secure Syncplicity with OneLogin to take complete control over application access, provision and deprovision users in real-time, create and enforce security policies, and add a second factor of authentication. Syncplicity end-users will enjoy OneLogin single sign-on across mobile, web, and desktop. Syncplicity by EMC is the market-leading hybrid cloud, enterprise-grade sync, share, and mobile collaboration solution. Together OneLogin and Syncplicity provides users with an experience they love and gives IT the security and control it needs.

### SINGLE SIGN-ON

OneLogin uses SAML 2.0 to sign users into Syncplicity. The standards-based SAML protocol uses digital signatures to establish trust between the identity provider and the application, eliminating user-managed passwords and the risk of phishing. SAML can also mandate that users only get access after having been authenticated by OneLogin using your organization's own authentication policies.

### UNIFY YOUR DIRECTORY: CONNECT AD & LDAP

OneLogin's Active Directory Connector can be installed in minutes with no server restarts or firewall changes required. Visually select one or more organizational units (OU) to import users from Active Directory and you're all set. OneLogin synchronizes users in real-time, which provides IT with an effective user kill switch when users leave the organization. OneLogin's AD Integration can even be configured in high-availability mode which leverages multiple AD Connectors per domain controller.

### AUTOMATE USER PROVISIONING

OneLogin automatically creates, updates, deletes, suspends, and activates users in Syncplicity based on real-time changes in your directory, simplifying user administration and improving compliance. You can even create advanced mappings to automatically control Role and Group memberships in Syncplicity.

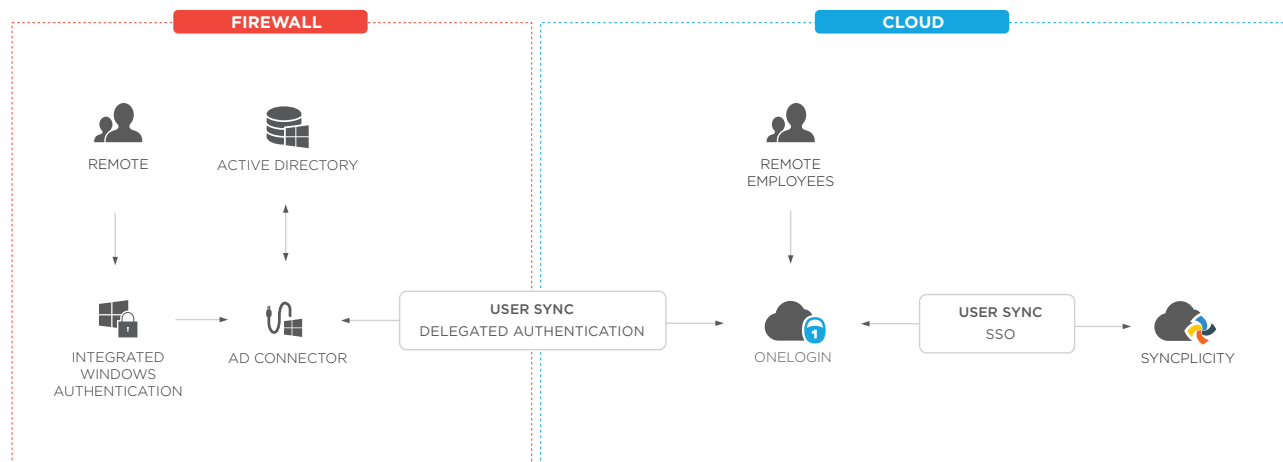

### SECURE & PROVISION USERS INTO

TRUSTED BY THE WORLD'S MOST INNOVATIVE COMPANIES

# ONELOGIN FOR SYNCPLICITY ALLOWS YOU TO LEVERAGE YOUR EXISTING DIRECTORY INFRASTRUCTURE

## SCALABLE, TRUSTWORTHY & SECURE

OneLogin supports complex directory infrastructures for some of the most demanding public companies in the world. Rest easy with redundant data centers in the US and Europe, massive scalable infrastructure, quarterly security reviews by iSEC partners, and 24/7 monitoring. 99.99% Uptime Guarantee.

## MULTI-FACTOR AUTHENTICATION

Multiple authentication factors provide an extra layer of protection so that a password breach isn't enough to compromise your private files. Use OneLogin's free smart phone app or a pre-integrated third-party solution from Duo Security, Google Authenticator, RSA or VASCO.

## SYNCPLICITY IS THE FASTEST GROWING VENDOR IN THE ENTERPRISE SYNC, SHARE AND MOBILE COLLABORATION SPACE

### TOP USE CASES

- Secure sync and share
- Easy file distribution to mobile devices
- Real-time document protection and continuous availability
- On-the-go document collaboration with mobile in-app editing
- Replace FTP and email attachments
- Mobile repository access

### SECURITY CAPABILITIES

- Policy driven true hybrid storage that addresses data residency and compliance concerns
- Integrated Rights Management that tethers security controls to content-on-the-go
- Group-based policies enable simplified policy administration that gives IT the ability to manage a complex security environment
- BYOD ready with rich device based policies and MDM integration

### USERS & IT LOVE SYNCPLICITY

- Gold Standard Mobile Experience
- Eliminates silos with storage and repository chvaices
- Enterprise grade security and manageability
