

onelogin + intello

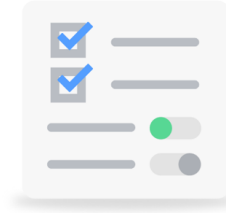

Unified Access Management + Intelligent SaaS Optimization

Manage
SaaS usage

Save on
inactive licenses

Strengthen
compliance

INTEGRATION OVERVIEW

Intello is a SaaS optimization platform that enables you to discover and manage your organization's SaaS usage, compliance and spend. Integrating OneLogin with Intello gives you complete visibility into SaaS utilization for all your connected applications so you can view every license, user, and activity by team across your organization.

BENEFITS

- Unlock full visibility into your SaaS utilization
- Discover apps not integrated with OneLogin
- Re-assign inactive licenses in real-time
- Receive alerts for redundant applications
- Monitor Shadow IT
- Comply with data-privacy regulations (GDPR)
